

WGS Equipment & Controls, Inc.

3060 Plaza Drive, Suite 110 | Garnet Valley, PA 19060 | T: (610) 459-8800 | F: (610) 459-8848 | www.wgsequipment.com

GENIE® line of Membrane Probes and Membrane Separators Analytically Correct™ Sample Extraction & Conditioning Components & Systems; Moisture / Corrosion Control Products.

Total Analyzer System from the sample point to sample return. We can design, engineer, build, start-up, train and service on-line continuous analyzer systems-from wall mounted units to complete shelter houses.

An Air Liquide Company
Industrial, medical and specialty gases as well as a product line of safety products, welding equipment, specialty tools,

Pressure and Vacuum Switches (Electromechanical), Level Switches, Temperature Switches, Pressure Transducers, Directional Control Valves, Level Sites for Tanks, Flow Switches.

CPA 50E, 55E, 65E
High Performance Plate Flow Conditioners, Engineering Consulting, and Nozzles

CASH VALVE

Pressure and Temperature Regulating, Back Pressure, Relief, Vacuum, Bypass and Cryogenic Valves, Strainers and Back Flow Preventors. Designed for Water, Oil, Air, Steam, Cryogenic, and High Purity Applications

Gas Ultrasonic Meters, Liquid Ultrasonic Meters, and Liquid Turbine Meters for Custody Transfer & Check Metering. Liquid Control Valves Orifice Fittings and Tubes

Providing cutting edge automation and control solutions. SCADA, PLC, SQL Server, Crystal Reports, Panel design, programming and fabrication.

Volume Correctors, Orifice Flow Computers, Remote Terminal Units, Pressure Recorders/Monitors/Trackers, Volume (Pulse) Accumulators, Cathodic Protection

FCI is a world leading manufacturer of thermal dispersion Mass Flow Meters, Flow and Level Switches, and Flow Conditioners for Process Measurement and Automation

Orifice Plates, Orifice Flanges, Orifice Meter Tubes, Flow Nozzles, Venturis, HHR FlowPak Tubes

Rotary Gas Meters, Available with Automatic Bypass Low Pressure and High Pressure

Precision Calibration Gas Mixtures

General Monitors
Safety Monitoring Systems, Smart H2S Sensors, Combustible LEL Gas Sensors, Flame Detectors, Open Path & Ultrasonic

Superior quality temperature sensors, RTD's, Thermocouples, Transmitters, Thermowells and accessories for sanitary and industrial applications.

INGOLD- is a worldwide leader in pH, dissolved and gaseous oxygen, dissolved CO₂, conductivity and turbidity solutions for process analytical measurement systems

THORNTON- is the leader in pure and ultrapure industrial water monitoring instrumentation

A globally operating premium provider of industrial weighing and control equipment
Load Cells for Silos & Process Vessels

Packaged Sample Conditioning Systems (SCS), Portable Sampling Systems to LNG, Vaporizers

Intrinsic Safety Isolators, Zener Barriers, Signal Conditioners, Fieldbus technology, Remote I/O, HART interfaces

Danalyzer Gas Chromatographs
BTU measurement, C₆+ or C₇+ hydrocarbon energy calculation applications; Complex C₉+; C₆+ with hydrogen sulfide (H₂S)

Optically Based Gas Analyzers, O₂ Oxygen, H₂S Hydrogen Sulfide, CO₂ Carbon Dioxide, Moisture Analyzers

Taylor Valve Technology

Conventional / Back Pressure and Pilot Safety Relief Valves; Choke Valves
Precision Electronic Gauges;
Taylor Gauge Plug® & Probe® Fittings;
Liquid Level Indicator

Tubing Bundles: Electric Trace, Pre-insulated and Steam Trace, Pipe and CEMS Bundles

VORTAB
COMPANY

Flow Conditioners, Flow Straighteners for Flow Meter, Process and Pump Systems

Hydrocarbon and Water Dewpoint Analyzers CEIRS™ infrared technology The most advanced dewpoint measurement systems available.

WGS Field Services

We offer experienced startup, maintenance, troubleshooting and repair of:

- ◆ Ultrasonic Meters ◆ Gas Chromatographs ◆ Sampling Systems ◆ TDLAS Analyzers ◆ Flow Meters ◆ Control Valves
- ◆ Fire & Gas Detection Equipment ◆ RTU's ◆ Volume Correctors ◆ Electronic Recorders

WGS Equipment & Controls, Inc can assist in all aspects of your project development. Conceptual Design, Drawings and Up-Front Engineering. Safety Audits and Site Assessments. CAD drawings / layouts
